## SUMMARY

---

UI/UX Designer and Frontend Developer with hands-on internship experience designing and shipping production interfaces. Proven ability to translate user needs into clean, responsive web applications using HTML, CSS, JavaScript, and Figma. Completed two internships and three shipped projects covering end-to-end product design, wireframing, prototyping, and frontend implementation. Actively seeking roles in UI/UX design or frontend development where design quality and user experience are priorities.

## INTERNSHIP EXPERIENCE

---

### Frontend Developer Intern

Dec 2025 – Jan 2026

*Ekhai · Chennai, India*

On-site

- Built and optimised responsive UI components using HTML, CSS, and JavaScript, improving cross-device usability for live production pages
- Identified and resolved layout inconsistencies and UI bugs through systematic debugging, reducing reported frontend issues
- Worked within a real-world Git-based development workflow including version control, code review, and iterative deployment

### UI/UX Design Intern

Apr 2025 – May 2025

*One Yes Info Tech Solutions · Chennai, India*

On-site

- Designed end-to-end UI for a Library Management System — covering dashboards, book issue/return flows, and admin panels — in Figma
- Created reusable component libraries, wireframes, and high-fidelity interactive prototypes focused on usability and workflow efficiency
- Collaborated with developers to hand off design specs, ensuring implementation matched prototype intent

## PROJECTS

---

### SkillSwap — Peer Learning Platform

HTML · CSS · JavaScript · Django · SQLite

[github.com/Harini-sana/SkillSwap-peer-learning-platform](https://github.com/Harini-sana/SkillSwap-peer-learning-platform)

- Designed and developed a full-stack peer-to-peer learning platform featuring user authentication, profile management, and an explore feed
- Implemented real-time messaging, progress tracking, and certificate-based engagement modules with a responsive, mobile-first UI
- Architected the Django backend with SQLite data models, RESTful routes, and session-based authentication

### DineEase — Restaurant Booking System

HTML · CSS · JavaScript

- Built a responsive restaurant booking interface covering menu browsing, table selection, and reservation confirmation flows
- Focused on accessibility, smooth navigation UX, and mobile responsiveness — live and deployed on Netlify

### GreenVibe — Plant Store

HTML · CSS · JavaScript    [green-vibe-plant-store.netlify.app](https://green-vibe-plant-store.netlify.app) · [github.com/Harini-sana/greenvibe-plant-store](https://github.com/Harini-sana/greenvibe-plant-store)

- Developed a visually engaging e-commerce frontend with product browsing, smooth UI interactions, and a clean layout system
- Emphasised design consistency, visual hierarchy, and responsive behaviour across screen sizes

### Library Management System — UI/UX Design

Figma · Prototyping · User Flows

Internship project · One Yes Info Tech Solutions

- Sole designer for a complete LMS — delivered wireframes, user flow diagrams, component library, and an interactive Figma prototype
- Prototype available on request; covered admin, librarian, and member roles with distinct dashboard views
